ON-MUSIC BRIO SPEAKER

On-Music speakers are made from the idea of " The power of Music ".

Their music speaker is a " Quality Music Carrier ", which delivers good and quality music as close as the original version of music to everybody in the world, who loves music, and also carry joy and peaceful feeling across countries through Music.

I received the Brio (Bluetooth version) and with the Union Jack design (which I love!).

My opinion is very honest:

I didn't expect that the Brio speaker delivered such a good quality!

It is really good! The sound and Bass is simply one of the best, well the best, that I ever tried!

The sound is very clear and reflects the music.

It's practical since you have a bag to protect it and carry him everywhere.

You can charge it and it lasts a lot of hours.

You can either plug the phone, radio, laptop, whatever you like, since it comes with a cable with several connectors or simply use it via Bluetooth. You can even plug a Mic and use it either to sing or make your voice be heard.

When playing, the volume can be adjusted either on the gadget that is plugged (or via Bluetooth) to it or directly in Brio speaker.

And since his design is modern you can place it anywhere cool, not that normal black that you hide it behind something.

The Brio speaker has our seal of 5 star recommendation!
